- a. I only
- b. II only
- c. Both
- d. None

ANSWER: c. Both

2. Consider the following statements. Identify the right ones.

I. The Solar System comprises the Sun and its eight planets.

II. All the planets revolve round the Sun in elliptical orbits.

- a. I only
- b. II only
- c. Both
- d. None

ANSWER: c. Both

3. Which of the following are not called "terrestrial planets"• ?

- a. Mercury
- b. Venus
- c. Mars
- d. Jupiter

ANSWER: d. Jupiter

4. Consider the following statements. Identify the right ones.

I. The earth has a layered structure.

II. From the outermost end of the atmosphere to the centre of the earth, the material that exists is not uniform.

- a. I only
- b. II only
- c. Both
- d. None

ANSWER: c. Both

5. Our earth is geoid in shape. Which of the following evidences prove the earth's sphericity?

- I. Circum-navigation of the earth
- II. The circular horizon
- III. Sunrise and sunset
- IV. Planetary bodies are spherical

- a. I only
- b. II and III only
- c. I and IV only
- d. All

ANSWER: d. All

6. Consider the following statements. Identify the right ones.

- I. Latitude is the angular distance of a point on the earth's surface.
- II. It is parallel to a line, the equator, which lies midway between the poles.

- a. I only
- b. II only
- c. Both
- d. None

ANSWER: c. Both

7. Consider the following statements. Identify the right ones.

I. Stars are celestial bodies that continuously emit light and heat.

II. Sun is also a star.

- a. I only
- b. II only
- c. Both
- d. None

ANSWER: c. Both

8. Consider the following statements. Identify the right ones.

I. Planets are celestial bodies that revolve around the sun.

II. They emit light like the sun or the stars.

- a. I only
- b. II only
- c. Both
- d. None

ANSWER: a. I only

9. Consider the following statements. Identify the right ones.

I. A satellite is a celestial body that revolves around another celestial body.

II. The moon is the only natural satellite of the earth.

- a. I only
- b. II only
- c. Both
- d. None

ANSWER: c. Both

10. Which of the following planets is nearest to the sun?

- a. Mercury
- b. Venus
- c. Mars
- d. Earth

ANSWER: a. Mercury
